geislinger@pm.me | 780-937-2092 | Edmonton, AB | https://github.com/t-creates

SKILLS

Front-end Skills	JavaScript, React.js, HTML, CSS, Chakra UI, Tachyons
Back-end Skills	Node.js, Express.js, PostgreSQL, DBeaver, Postman API
Deployment & Other Software	Heroku, Vercel, Git / Github, Microsoft Project, Bluebeam Revu
Personal Skills	Able to read and understand documentation, problem solving

EXPERIENCE

SMART BRAIN APP | Web Developer

- Used React.js to design front-end of a facial-recognition web application.
- Built the back-end server with RESTful API using Express.js.
- App has session management with authenticated routes.
- Database created using PostgreSQL that stores user profiles and encrypt's passwords with hashing.
- Deployed front-end and back-end through Heroku.

REAL ESTATE APP | Web developer

- A web application created using Node.js.
- The app fetches data from an API to show users available properties to rent or purchase.
- Used Chakra UI for styling and React.js to built components.
- Deployed the app using Vercel.

ALPHA CONSTRUCTION INC. | Project Coordinator

- Collaborated on profitable projects valued between 18- 25 million CAD.
- Communicated with team members, clients, sub-contractors and suppliers to achieve deliverable projects on schedule.
- Played key role in projects slated to improve operational efficiency, reaching performance goals, deadlines, creating and implementing project schedule.
- Progressed multiple projects by problem solving and looking for new ways to improve projects.

ALPHA CONSTRUCTION INC. | Superintendent

- Oversaw complete construction process to maximize quality, cost control, and efficiency.
- Monitor and report project progress. Estimated costs and ensured project was on budget.
- Demonstrated excellent communication skills working with clients, engineers, local residents, and co-workers.
